EDUCATION

Birla Institute of Technology, Mesra — Ranchi, Jharkhand
Bachelor of Technology — 2021 – 2025
Major in Computer Science Engineering
Cumulative GPA: 8.56 / 10

WORK EXPERIENCE

Specialist Programmer — Oct. 2025 – Present
Infosys Limited — Hyderabad, Karnataka

- Engineered a reusable PCF component using React and .NET Web API for a Microsoft client solution, contributing to business operations associated with ~$2B in revenue.
- Developed a Microsoft Fabric notebook to automate 100K+ record updates, improving data accuracy.
- Built 10+ interactive Power BI dashboards for data-driven decision-making.
- Built a multi-agent RAG system with chunking, extracting 8+ fields and enabling document QnA.

Software Development Intern — Jan 2025 – Apr 2025
Tech HelioSys — Ranchi, Jharkhand

- Delivered 12+ key features that allowed users to easily book services, improving client-customer engagement.
- Used 7 Firebase collections to streamline data flow, reducing manual tracking for the client by 80%.
- Integrated RazorPay for 20+ payment flows, enabling secure and instant online payments.
- Implemented Firestore indexing and optimized queries, reducing data fetch time by up to 60%.

PROJECTS

FileFlow – A File Sharing WebApp — *Landing Page*

- Designed and deployed a scalable File Sharing Application using the MERN stack for secure and efficient transfers.
- Built responsive UIs with React.js, increasing user engagement by 40%.
- Optimized RESTful APIs in Node.js & Express.js, reducing file processing time by 50%.

Tech Stack: React.js, HTML, CSS, JavaScript, Node.js, Express.js, MongoDB

Kamfare – Cab Fare Prediction and Comparison App — *Website*

- Developed a fare prediction platform that compared rides across Ola, Uber, and Rapido, enabling users to save up to **20–30%** per trip by selecting the cheapest provider.
- Integrated Google Maps APIs to dynamically calculate real-time distance and optimal routes, improving fare estimation accuracy by **35%**.
- Designed interactive dashboards that analyzed 1,000+ fare trends and booking patterns, increasing user savings recommendations accuracy by **25%**.

Tech Stack: Node.js, Express.js, MongoDB, Python, Flask, React.js

SKILLS

Technical Skills: Java, JavaScript, TypeScript, C#, Angular, RESTful APIs, MongoDB, MySQL, MS SQL Server, Git/GitHub, .NET, Agentic AI, PowerBI, Python, Microsoft Azure, Microsoft Synapse, Microsoft PowerApps, Springboot
Professional Skills: Problem-solving, Collaboration, Communication, OOP, Agile methodologies

CODING PROFILE

Solved over 500+ Data Structure and Algorithms Questions on LeetCode

ACHIEVEMENTS

- Advanced to Round 2 of the Adobe GenSolve Hackathon, ranking in the top five percentile.
- Progressed to Round 1.2 of Flipkart Grid 6.0 from 300,000+ participants (only 8,000 progressed).
